Environmental Education seeks to achieve the level of competence and citizenship in all students that will enable them to contribute to the achievement of sustainable societies.

Through environmental Education students acquire knowledge, skills and attitudes to enable them to form judgements about sustainable lifestyles and to participate in environmental decision making. They can also acquire technical skills associated with environmental cost accounting and life-cycle analysis.
Environmental Education at YPS

The Environmental Education Coordinator at Yenda Public School is Mrs Kellie Kelly.

Congratulations to Mrs Kelly for receiving an Education Week award in 2010. This award acknowledged her 10 years of service within the school and also all that she has contributed towards Environmental Education and Awareness in our great school.
