The Dress Code aims to:

- Create and promote collective and individual pride in students
- Further develop a sense of pride in, and establish identification with the school
- Provide durable clothing that is cost effective and practical for our school environment
- Promote equality amongst students
- Support the Sun Smart policy.

All clothing, lunch boxes and any other belongings must be clearly labelled with the child’s name and it is important that children learn to recognise their own belongings. Named items are returned to students as soon as possible. Unclaimed items are kept in a specially marked storage bin in the front office and may be claimed at your convenience. Unnamed items remaining at school at the end of the school term are donated to charity or placed in the clothing pool.
